Product details

ORALITE® Hazard Warning Tapes

Reflective Film – High Intensity Grade

ORALITE® 5831IND Hazard Warning Tape

The perfect tape for hazard warning markings, where a high degree of reflectivity is needed.

Product benefits include:

- Flexible reflective film
- Surface of modified acrylic film
- Weather proof
- Compliant to DIN 4844
- Class RA2, design B
- Available in black / yellow and red / white
- Roll sizes 50mm x 25m, and 100mm x 25m

Reflective Film – Commercial Grade

ORALITE® 5431IND Hazard Warning Tape

If a lower degree of reflectivity is enough for your marking purposes, the Commercial Grade is the ideal solution.

Product benefits include:

- Highly flexible reflective film
- Surface of cast PVC copolymer
- Weather proof
- Compliant to DIN 4844
- Class RA1, design A
- Available in black / yellow and red / white
- Roll sizes 50mm x 25m, and 100mm x 25m

Non-reflective Film

ORALITE® 5071IND Hazard Warning Tape

The non-reflective tape for your indoor plant markings of hazardous areas.

Product benefits include:

- Available in black/yellow and red/white
- Compliant to DIN 4844
- Roll sizes 50mm x 25m, and 100mm x 25m

Colour Guide for Hazard Warning Tapes

Black / Yellow:

The black / yellow marking tapes are used for marking of fixed objects. Examples could be sharp edges on fixed production equipment, staircase markings, markings around doors etc.

Red / White:

The red / white marking tapes are used for marking of objects which are movable around the plant. Examples include fork lifts and moveable waste containers etc.
